3

Physicians spend up to about 45% of their time on computers

The use of tablets helps to expedite check in process and reduce human error

Nurses make up to 144 patient visits per day

## iCleanse for Healthcare

Healthcare establishments must assure their patients and staff the highest level of cleanliness and protection. Preventing the spread of germs is critical in this field. Hightouch and shared equipment must be disinfected regularly to protect patients and employees from sickness.

With our iCleanse products using UV-C compared to traditional disinfecting practices, it reduces disinfection time significantly. This allows for a more efficient way for medical establishments to disinfect their devices and medical equipment in an expeditious manner. iCleanse products also kill 99.9% of pathogens that can lead to infection in as little as 30 seconds allowing medical staff to be as protected and efficient as possible while doing their job.

## Why choose iCleanse

Everything we do starts with our belief that providing a safe and simple way to manage and disinfect devices such as smartphones, tablets, and company electronics will result in a safer and healthier environment for businesses, employees, customers, and their families. Our chemical-free disinfection units are used for high-touch surfaces that require disinfection in germ-sensitive settings. At iCleanse our priority is safety, efficacy, and the wellbeing of all individuals that we serve.

Our commitment to this belief and to the individuals our clients serve is unparalleled.

## PRODUCTS

iCleanse products are easy to integrate into day-to-day activities. Our products are engineered to control the disinfection process and kill pathogens in as little as 60 seconds.

### Swift XL

Large disinfecting station for multiple mobile phones and tablets.

#### Tech Specs

W: 26", D: 17.5", H: 8.75"

Basket Accommodations: 11" x 18" x 2.75"

Weight: 42 lbs.

### Swift

Disinfecting station for mobile phones and medium sized tablets.

#### Tech Specs

W: 20", D: 17.5", H: 8.75"

Basket Accommodations: 11" x 13" x 2.75"

Weight: 26 lbs.

### Swift Mini

Small disinfecting station for mobile phones and small tablets.

#### Tech Specs

W: 15.5", D: 17.5", H: 11"

Basket Accommodations: 8.5" x 11" x 4.5"

Weight: 29 lbs.

### Swift 5x

Disinfecting docking station that stores, locks, charges & disinfects up to 5 devices.

#### Tech Specs

W: 15.5", D: 17.5", H: 17.75"

Basket Accommodations: 8.5" x 11" x .75"

Weight: 51 lbs.

US Patent Numbers: 8296493, 8606981, 8977796, 9254342, 10166308
